

# Stripe

You are a Product Analyst collaborating with the Stripe Connect team to evaluate the performance of seller payouts within the marketplace ecosystem....

Question 1: What is the total number of payouts made by each seller segment in July 2024?

```
SELECT seller_segment, COUNT(*)  
FROM dim_sellers  
INNER JOIN fct_payouts  
USING(seller_id)  
WHERE TO_CHAR(payout_date, 'YYYY-MM') = '2024-07'  
GROUP BY seller_segment;
```

Question 2: Identify the seller segment with the highest payout success rate in July 2024 by comparing successful and failed payouts.

```
SELECT seller_segment,  
       SUM(CASE WHEN payout_status = 'successful' THEN 1 ELSE  
0 END) * 100.0 / COUNT(*) AS percentage  
FROM dim_sellers  
INNER JOIN fct_payouts USING (seller_id)  
WHERE TO_CHAR(payout_date, 'YYYY-MM') = '2024-07'  
GROUP BY seller_segment  
ORDER BY percentage DESC  
LIMIT 1;
```

Question 3: What percentage of payouts were successful versus failed for each seller segment in July 2024, and how can this be used to recommend targeted improvements?

```
SELECT seller_segment,  
       SUM(CASE WHEN payout_status = 'successful' THEN 1 ELSE  
0 END) * 100.0 / COUNT(*) AS success_rate,  
       SUM(CASE WHEN payout_status = 'failed' THEN 1 ELSE 0 EN  
D) * 100.0 / COUNT(*) AS fail_rate  
FROM dim_sellers  
INNER JOIN fct_payouts USING (seller_id)  
WHERE TO_CHAR(payout_date, 'YYYY-MM') = '2024-07'  
GROUP BY seller_segment;
```
