

Meta

As a member of the Marketing Analytics team at Meta, you are tasked with evaluating the performance of branded AR filters....

Question 1: Which AR filters have generated user interactions in July 2024? List the filters by name.

```
SELECT filter_name
FROM ar_filters
WHERE filter_id IN (
    SELECT filter_id
    FROM ar_filter_engagements
    WHERE engagement_date BETWEEN DATE '2024-07-01' AND DATE '20
24-07-31'
);
```

Question 2: How many total interactions did each AR filter receive in August 2024? Return only filter names that received over 1000 interactions, and their respective interaction counts.

```
WITH total AS (  
  SELECT  
    f.filter_name,  
    SUM(e.interaction_count) AS total_interactions  
  FROM ar_filters f  
  INNER JOIN ar_filter_engagements e ON f.filter_id = e.filter_id  
  WHERE e.engagement_date BETWEEN DATE '2024-08-01' AND DATE  
    '2024-08-31'  
  GROUP BY f.filter_name  
)  
SELECT *  
FROM total  
WHERE total_interactions > 1000;
```

Question 3: What are the top 3 AR filters with the highest number of interactions in September 2024, and how many interactions did each receive?

```
WITH total AS (  
  SELECT  
    f.filter_name,  
    SUM(e.interaction_count) AS total_interactions  
  FROM ar_filters f  
  INNER JOIN ar_filter_engagements e ON f.filter_id = e.filter_id  
  WHERE e.engagement_date BETWEEN DATE '2024-09-01' AND DATE  
    '2024-09-30'  
  GROUP BY f.filter_name  
)  
SELECT *  
FROM total  
ORDER BY total_interactions DESC  
LIMIT 3;
```
