Question 2: For each weapon, what is the highest number of matches played in a week during October 2024? Return the weapon name and the count of matches.

```
with week as(
  SELECT *,EXTRACT(WEEK FROM match_date) AS week_number
  FROM fct_matches
  WHERE match_date >= '2024-10-01' AND match_date < '2024-11-01'),

  matches AS(
    SELECT weapon_id,week_number, COUNT(match_id) AS number_matches
    FROM week
    GROUP BY weapon_id, week_number)

SELECT d.weapon_id, weapon_name, MAX(number_matches) AS max_number_matches
FROM matches
INNER JOIN dim_weapons AS d
ON matches.weapon_id = d.weapon_id
GROUP BY d.weapon_id, weapon_name
```

Question 3: Identify the least and most utilized weapon ID and legend ID combinations based on the total matches played in October 2024.

```
with total AS(
  SELECT
    weapon_id,
    legend_id,
    COUNT(match_id) AS num_matches,
    DENSE_RANK() OVER(ORDER BY COUNT(match_id) DESC) AS match_
rank
FROM fct_matches
WHERE match_date >= '2024-10-01' AND match_date < '2024-11-01'
GROUP BY weapon_id, legend_id)

SELECT weapon_id, legend_id
FROM total
WHERE match_rank = (SELECT MIN(match_rank) FROM total)
  OR match_rank = (SELECT MAX(match_rank) FROM total)
ORDER BY weapon_id, match_rank;
```
